CAREER GOALS

Short goal

STUDENT

Da Nang City

I am a student about to complete a major in IT at Duy Tan University. I am also about to graduate with a bachelor's degree in software engineering in August. With the expertise that I have been working on CDIO projects at school, I want to find a suitable job: a web internship position to apply and promote my abilities well. The school work experience that I accumulate will be the basis for me to become a good developer in the future.

Long goal

STUDENT

Da Nang City

University graduate, ability to read and test software, working knowledge of Reactjs, Nodejs, MongoDB, and extensive updates on new technologies. I seek to solve problems, understand well data structures and algorithms to become a senior developer and improve my knowledge in the IT field, using my skills.

EDUCATION

Bachelor of Software Engineering at Duy Tan University in August 2022

DUY TAN UNIVERSITY

Da Nang City
